I see by Antique Electronic Supply's latest flyer that they're having another of their occasional tube fire sales. Six columns of tubes, most going for 50 cents to two dollars -- a person could easily build an entire TX and RX without paying more than a buck a tube. Give them a call at 602-820-5411 if you don't already have the flyer. BTW, this is where their reprint of the '73 GE tube manual really comes in handy -- can I really -use- a 50-cent 6DS5, or a 6BR8?

73,  
Mike, KK6GM
